Summary of research assignment or task

-reviewed scholarly articles. The second
involves students utilizing these three ~~press~~ in order to write a short
they must successfully adhere to APA format.

Learning Outcomes (SLOs) – at least one, no more than three

Understand the fundamentals of accessing and searching library databases for
information.

Understand the differences between scholarly and popular literature
in the field of occupational therapy.

Understand how to locate resources related to APA formatting and utilize those
resources to format their eventual reflection papers.

How are students doing as they work toward meeting these outcomes?

The instruction was delivered in the classroom, or in a synchronous way via Zoom, I
provided ample time to ask questions, and also allow them time to begin searching
on their own in the room and monitor progress and/or answer questions. In this

circumstance, considering the lecture was delivered asynchronously via a Zoom recording, I was unable to interact with students throughout the class session to evaluate their cognition of the material presented. Professors Whittaker
